Highlights of the 2026 edition

Innovation and Technology

The machinery demonstrations and solutions presented by the exhibitors showcased the latest technological trends in textile and apparel production.

Business and Networking

Suppliers, manufacturers, apparel producers, entrepreneurs, and decision-makers gathered in a setting designed to generate business opportunities and strengthen the sector's competitiveness at a pivotal moment for the industry.

Denim Station

An interactive experience that allowed visitors to explore the entire journey of jeanswear, from the fiber and production processes to the design and final manufacturing.

"Perspectivas" series

New! A series of talks where industry leaders shared their perspectives on current industry issues, trends, sustainability, the digital ecosystem, and entrepreneurship.

Sustainability took center stage in the exhibition's concept, in line with Texpertise, Messe Frankfurt's global platform for the textile industry.

Within this framework, the initiatives identified under Econogy highlighted the progress made in responsible practices throughout the value chain.
